Van Wert Wholesale
Peony and Iris Gardens

Van Wert, Ohio

TERMS

ACCEPTANCE

All orders will be booked and shipped in rotation, subject to stock being unsold or available on receipt of order. Refunds will be promptly made for varieties we are not able to furnish.

SIZE OF ROOTS

Prices quoted on Irises are for good, healthy single rhizomes. If clumps are desired write for special quotations.

Prices quoted on Peonies are for good, healthy two eye divisions with a well balanced root system. We have many letters on file telling of the splendid results obtained from this size roots. In our own planting we cut our roots to a single eye and we have found by allowing these single eye divisions to grow into three and four year old plants, that we get a wonderful increase and in addition are able to furnish splendid strong divisions for our customers from these three and four year old plants.

DELIVERY

Irises are offered for immediate delivery. Peonies are offered for delivery September 20th to November 1st. All orders will be forwarded by express, transportation charges to be paid by the purchaser, unless we are instructed to forward by parcel post, in which event we will bill purchaser for the actual postage expense.

PAYMENTS

On orders amounting to \$20.00 or less, cash with order. On orders above that amount to all purchasers who can give satisfactory references, 50 per cent with order, balance due at time of delivery.

No discount allowed, as quotations represent our net wholesale prices.

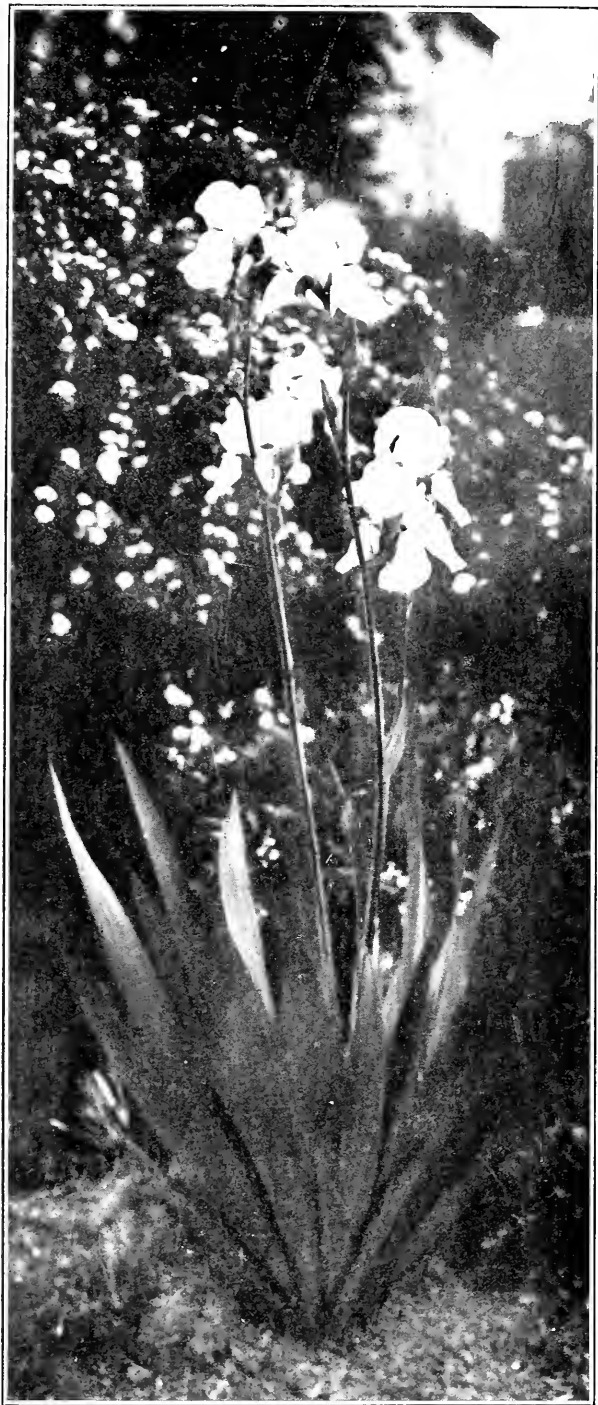

Make all remittances payable to The Van Wert Wholesale Peony and Iris Gardens.

GUARANTEE

We believe that all varieties in this list are true to name, but should any bloom untrue we will refund the money paid for it.

No substitutions will be made. If we cannot furnish the varieties ordered, we will promptly return your remittance.

The prices in this list supersede those quoted in all previous lists.

A clump of Iris, Mother of Pearl, showing its sturdy growth and fine blooming habit. The Descriptive Iris List issued by Lee R. Bonnewitz, Van Wert, Ohio, carries a reproduction of this variety in full colors. We think this is the best Iris investment of the year. Do not overlook the prices quoted in this list.

A New Service for Growers

FOR several years we have been growing and selling Peonies and Irises to customers for their own private gardens and have built up what we consider a successful retail business. Each year a considerable portion of the orders have come from other commercial gardens and the continued growth of the business from other growers has convinced us that there is a demand for a Wholesale Peony and Iris Garden from which growers can procure the highest grade of stock at the lowest possible prices.

Realizing the need for this source of wholesale supply, we have purchased a farm on the Lincoln Highway about five miles west of Van Wert, and have established **The Van Wert Wholesale Peony and Iris Gardens**. It is our intention to have this organization deal only with growers who purchase roots for resale, or who grow flowers for commercial purposes.

We are anxious to get our wholesale catalogues into the hands of commercial growers only, and we ask that your first order be sent in on your nursery or garden stationery.

In submitting this list of Peonies and Irises it is our aim to give our customers the benefit of our experience in growing and studying the merits of the varieties we list. With this thought in mind we have divided both our Peony list and our Iris list into two groups. The first group contains varieties which have shown great merit in our garden and which have already won a place on our **select list**. We do not hesitate to recommend every variety in the **select list** as hav-

ing value in the commercial field. In the second group we are listing the many varieties we are still growing for further study and observation. Many, many of these are undoubtedly splendid varieties, but they have not yet won a place in our **select list**. Some of them undoubtedly will be included in it in succeeding years but for this season we have made the division into two classes to serve as a guide for our customers.

In this second group of varieties for further observation and study we are including many of the new introductions and novelties, and to enable the reader to readily locate them we are listing them in bold type. It must be understood of course that some of these novelties have bloomed for us only once and then on plants which were not fully acclimated and consequently they have not yet had an opportunity to win a place on our **select list**.

If you are interested in Dwarf or Siberian Irises write for our special list.

If you do not find the varieties listed in which you are interested write for special quotations. We may have sufficient stock to take care of your needs, and yet not enough to list in this general wholesale list.

We want our organization to be of real service to growers, especially beginners. Write us about your problems, we will do our best to help you solve them.
